

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

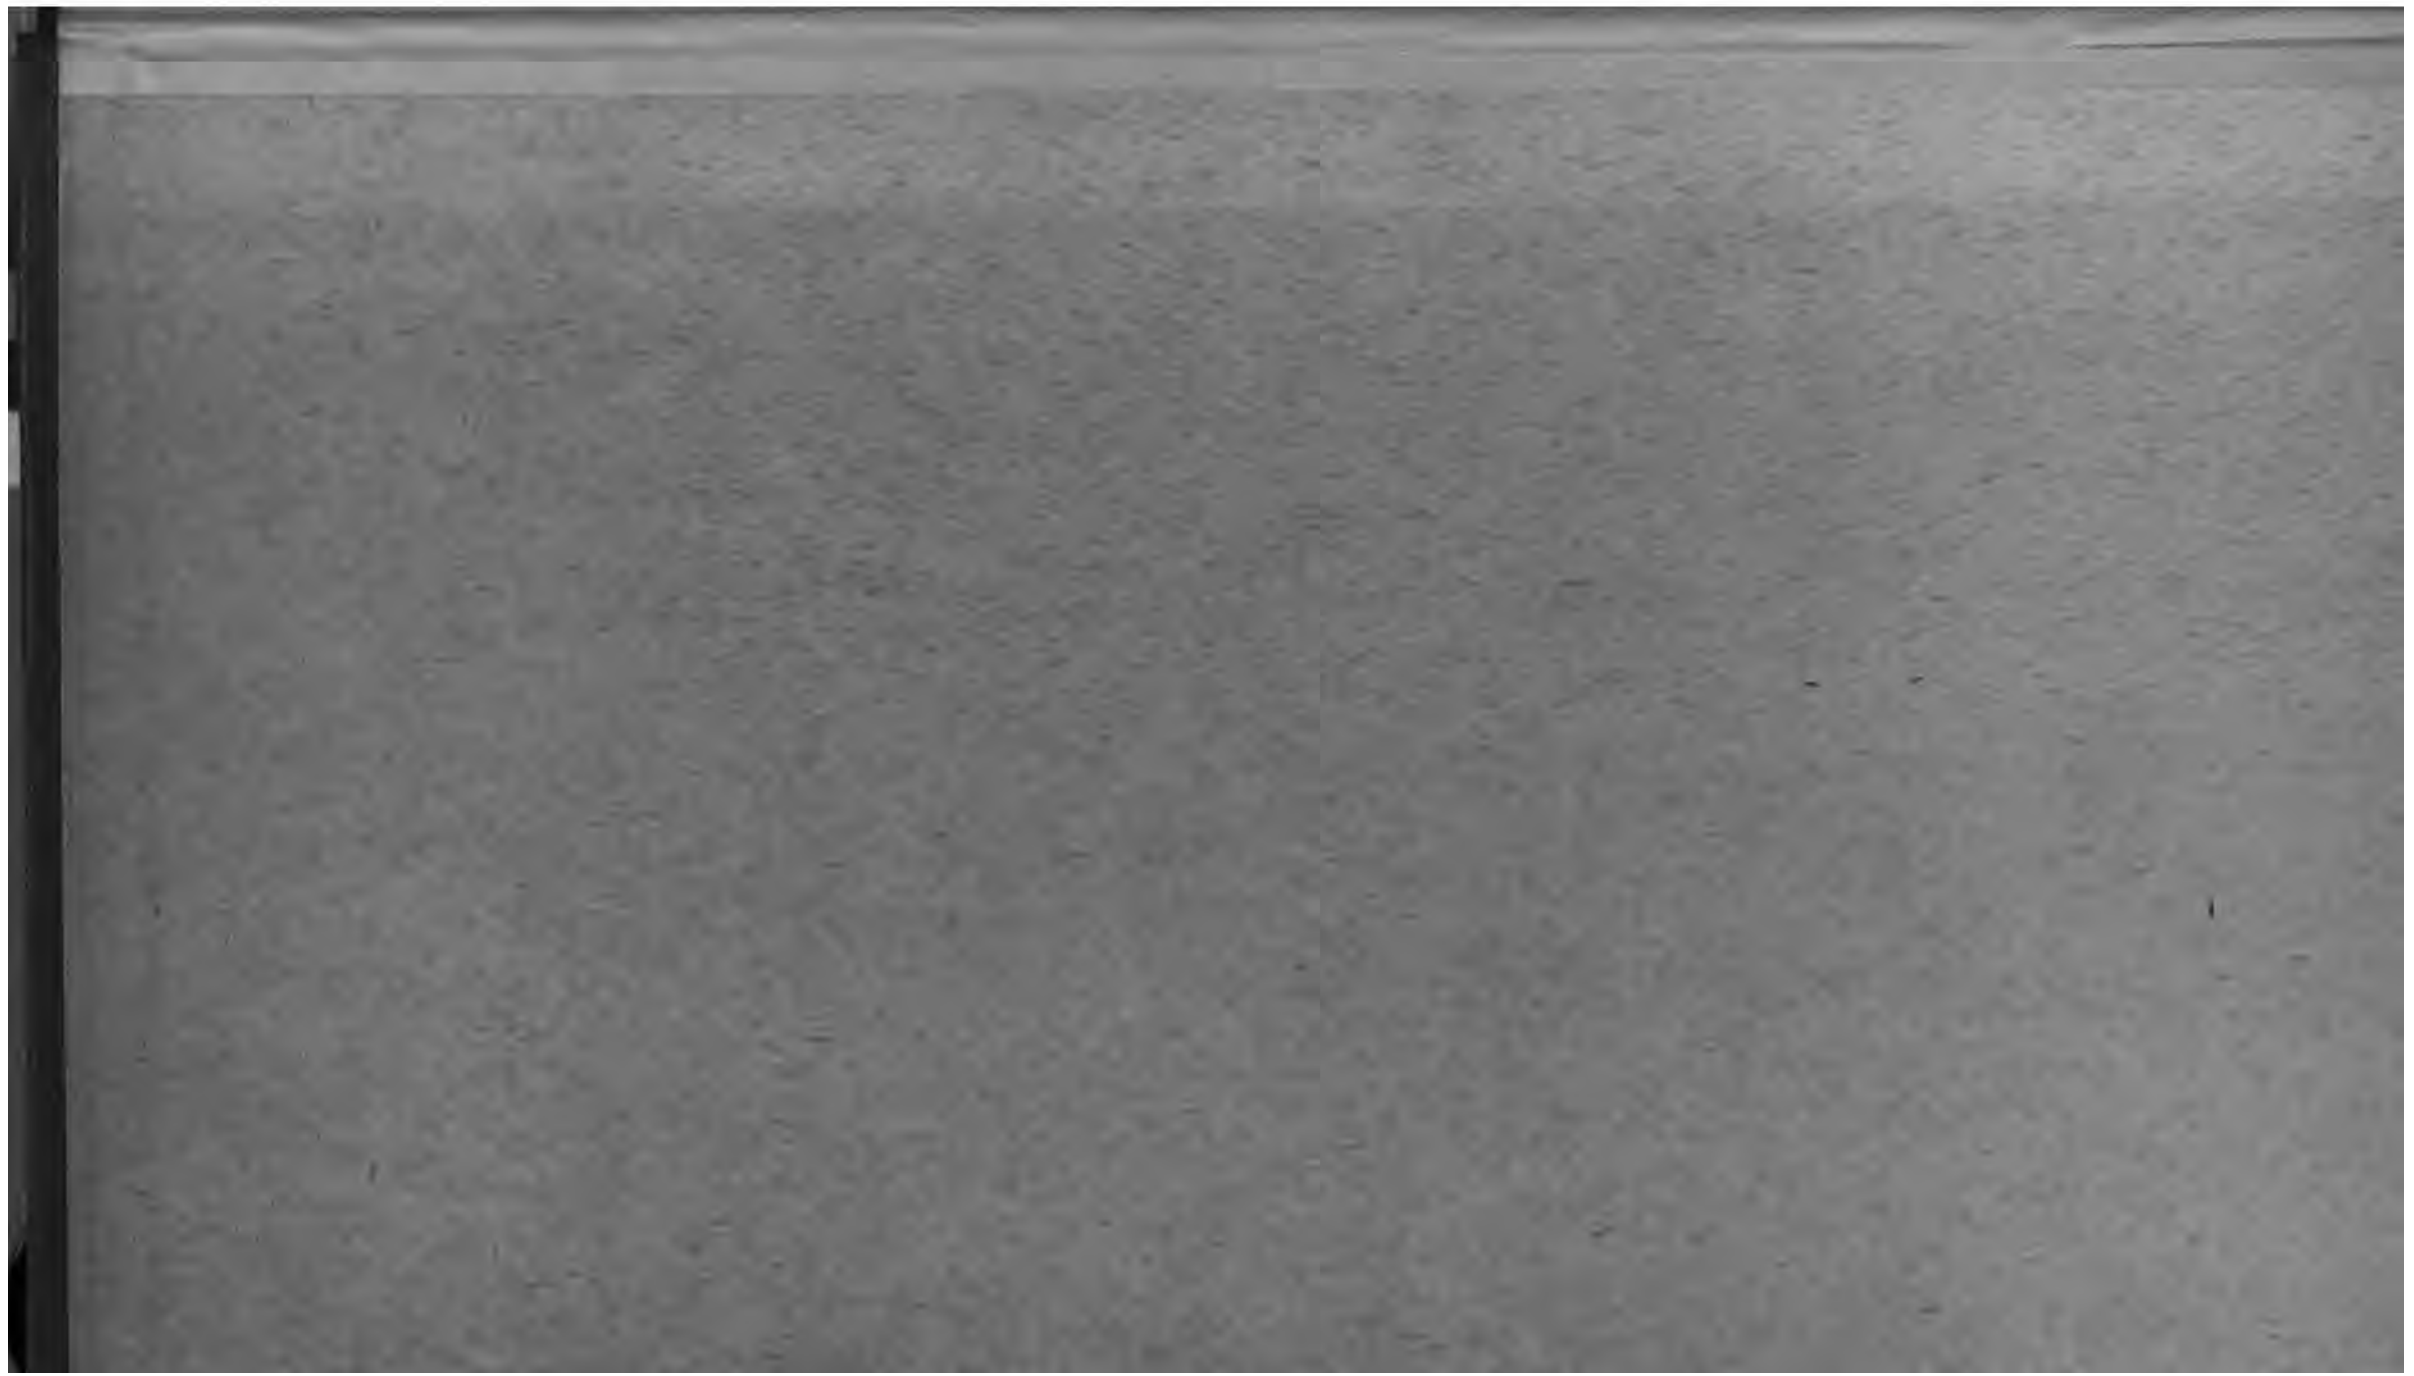

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

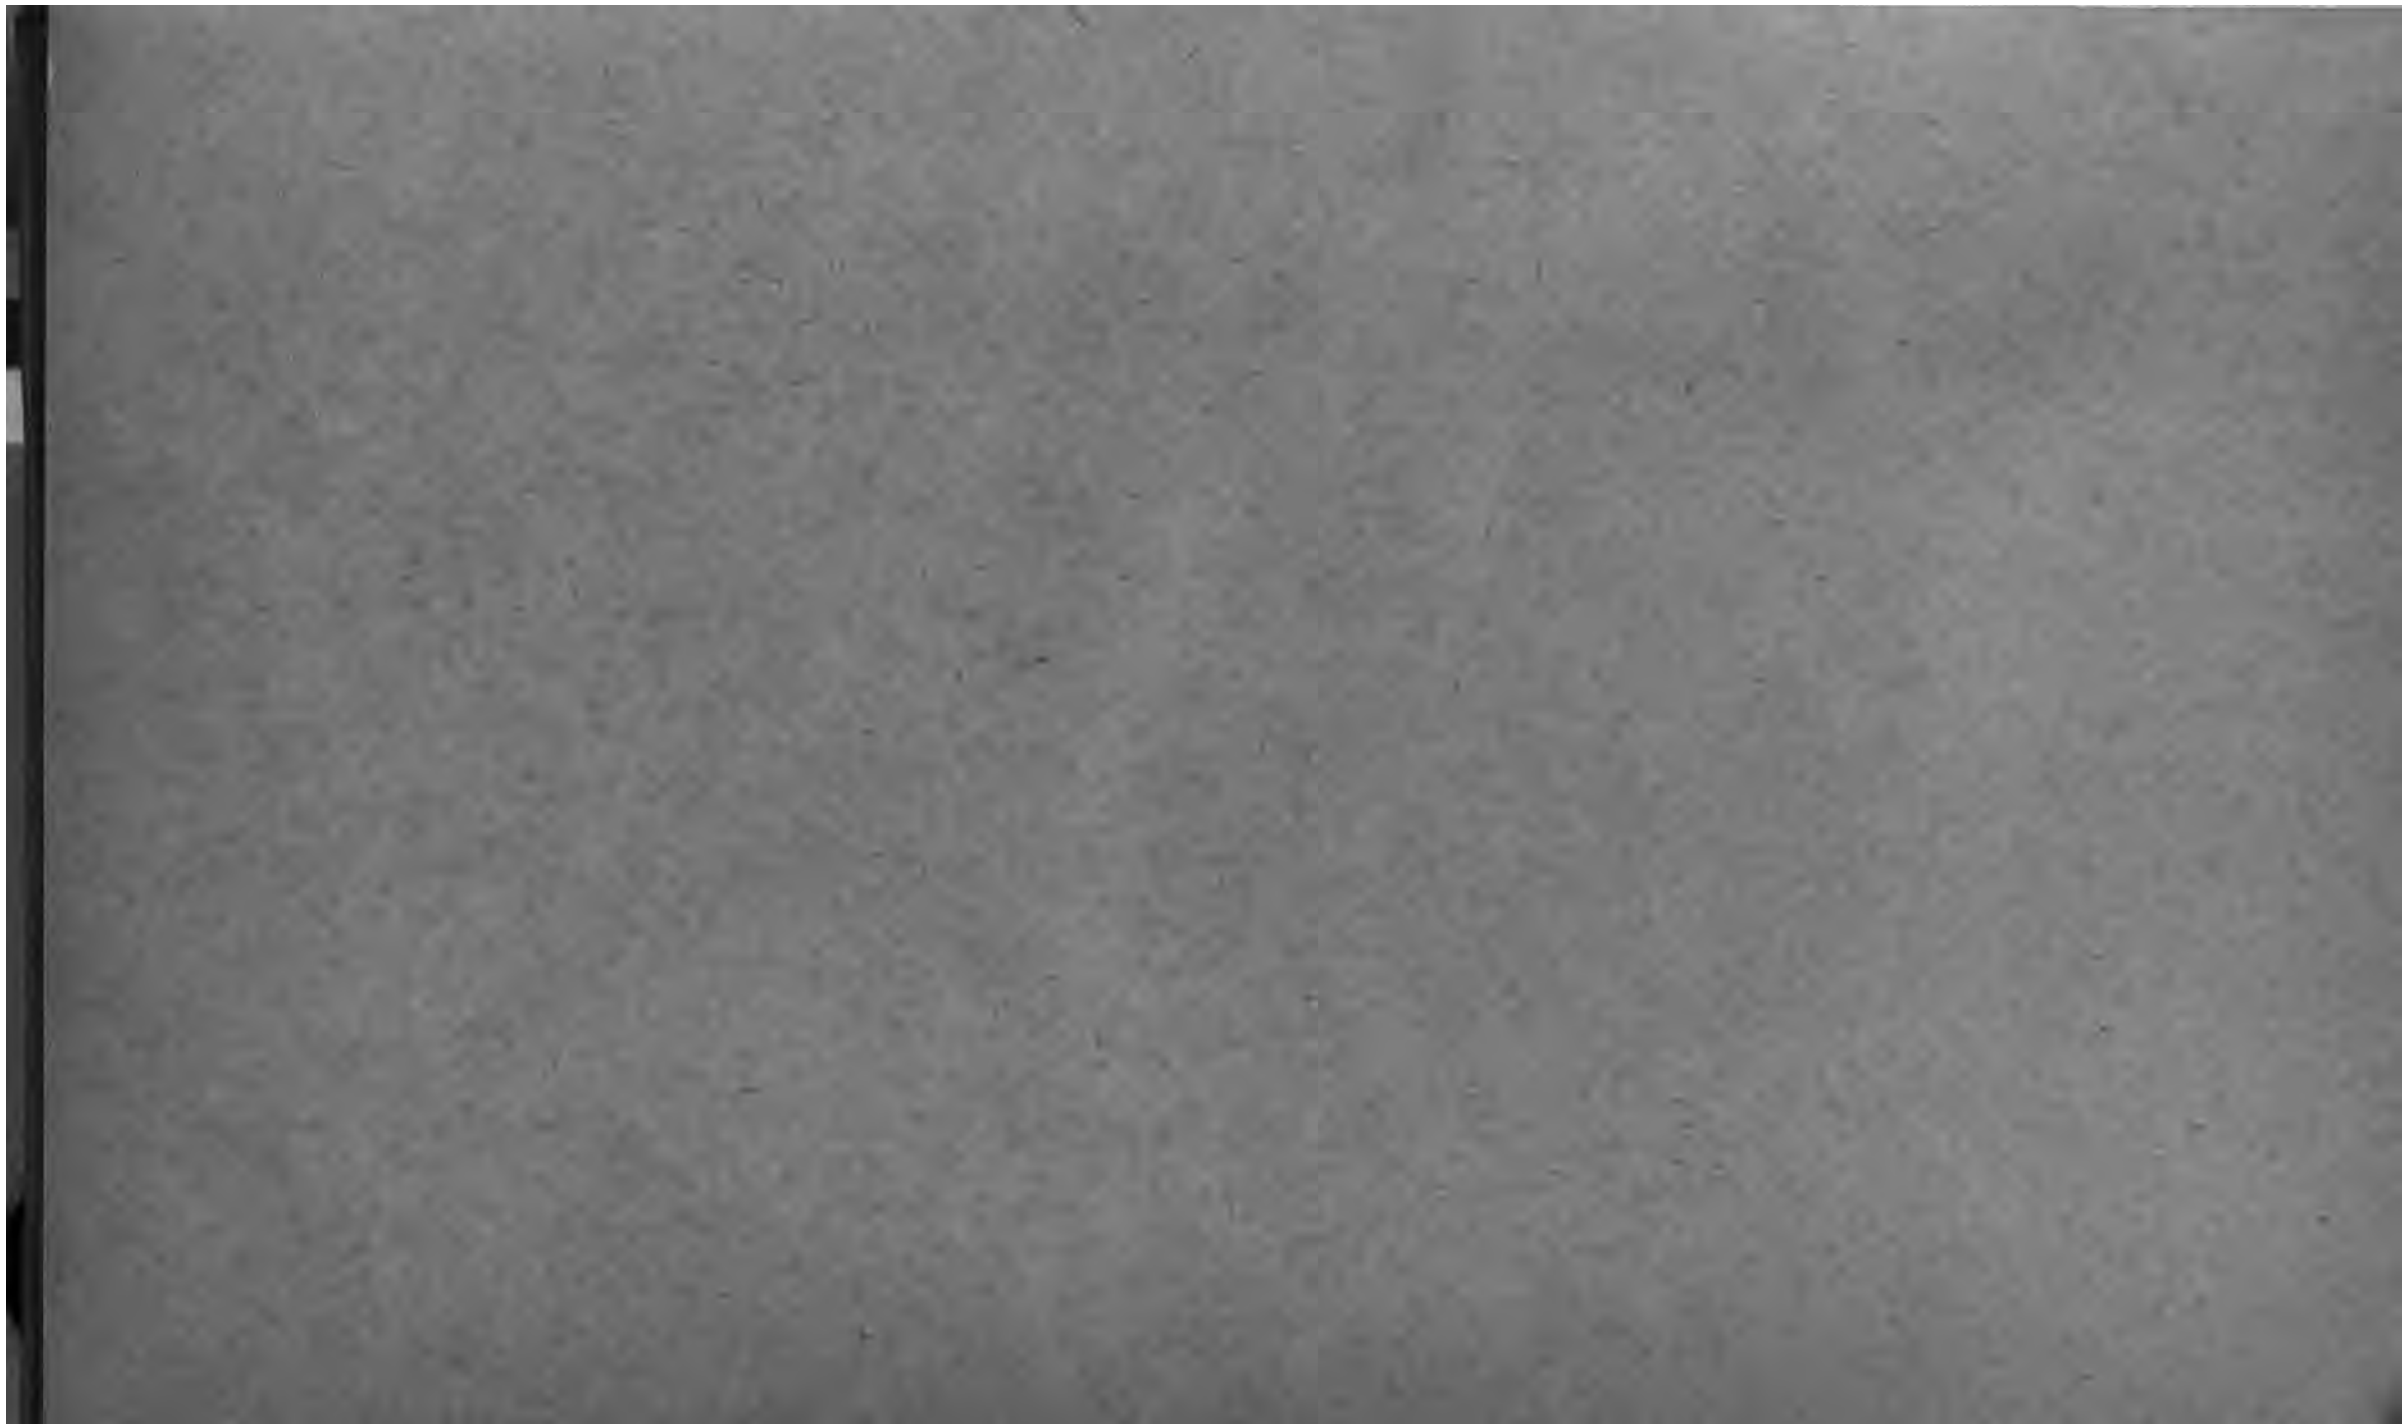

About Google Book Search

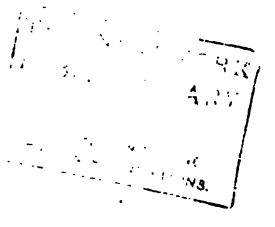

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. STATISTICAL REGISTER,

Half-Year January to June, 1904.

PREFACE.

In June, 1904, instructions were issued by the Prime Minister's Department to the effect that in future all Blue Books were to be drawn up dealing with the period covered by the financial year, *i.e.*, 1st July to 30th June in each year, instead of as hitherto for the calendar year, and that in connection therewith the next Statistical Register was to be prepared to cover the period from the 1st January to 30th June, 1904. The book was still in the printer's hands when a Resolution was adopted by the Honourable the House of Assembly (11th April last) issuing instructions that the Statistical Register was to be framed for the original period, *i.e.*, the calendar year. The Report, therefore, which has hitherto been published with the Annual Register, will appear in conjunction with the complete volume for the year 1904.

A. J. BRINTON,
Acting Registrar General of Statistics.

No. 1.—TABLE of the RATE of DUTY LEVIED on each ARTICLE IMPORTED.

FREE LIST.

No. 77. All animals bred and articles grown, produced or manufactured within the Union, except :

(*a*) Flour, wheaten, or wheaten meal, including pollard, manufactured from other than South African wheat.

(*b*) Spirits, beer, or blasting compounds, distilled or manufactured in the Union, should a duty be imposed under Article XVII. of Convention.

ARTICLE III.—PREFERENTIAL ARTICLE.

A rebate of Customs Duties shall be granted on any goods and articles, the growth, produce or manufacture of the United Kingdom imported therefrom into the Union for consumption therein to the extent following :—

(*a*) In the case of goods and articles liable to Customs Duty under Class I, II or V, a rebate of 25 per cent. of any duty chargeable thereon at an *ad valorem* rate, but of no other duty, and

(*b*) In the case of goods and articles liable under Class III to duty at an *ad valorem* rate of 2½ per cent. a rebate of the whole of such duty.

Provided, that the manufactured goods and articles in respect of which such rebate as aforesaid shall be granted shall be *bona fide* the manufactures of the United Kingdom, and that in the event of any question arising as to whether any goods or articles are entitled to any such rebate as aforesaid, the decision of the Minister or other Executive Officer in whom the control of the Customs Department immediately concerned is vested, shall be final.

ARTICLE V.

On and after the coming into operation of the Convention signed at Brussels on the 5th day of March, 1902, between the United Kingdom and other Powers relating to the abolition of the bounties on sugar, a special additional duty equivalent to any bounty which may be granted on sugar from any country which is not a party to the said Convention shall be levied and imposed on importation into the Union of such sugar. For the purposes of this Article the term sugar shall include sugar products such as preserves, chocolates, biscuits, condensed milk and all other analogous products containing in a notable proportion sugar artificially incorporated.

ARTICLE XIII.

The collection of the Customs Duty imposed under Class I. of the foregoing Tariff upon fresh, chilled and frozen meat and on animals for slaughter, shall be suspended until such time as a majority of the contracting parties to the Convention agree that such suspension shall be removed.

ARTICLE XV.

Any Colony or Territory within the Union may provide for the suspension of the whole or part of the Customs Duties imposed by the foregoing Tariff on the importation for consumption in such Colony or Territory of any goods or articles comprised in the first part of Schedule "C" of the Customs Union Convention ; and the Territory of Southern Rhodesia may, in addition, provide for the suspension in whole or part of the duties on any goods and articles comprised in the second part of such Schedule ; provided

(*a*) That legislative provision be made for the payment during the period of such suspension by the Government of the said Colony or Territory of a bounty on similar goods and articles imported upon a due declaration for consumption within the said Colony or Territory from any other part of the Union and produced or manufactured therein solely from Union Products, such bounty to be equivalent to the duties suspended and to be received and paid in accordance with regulations mutually approved by the parties immediately concerned.

(*b*) That in the case of the Territory of Southern Rhodesia no bounties shall be payable until the expiration of two years from the coming into force of this Convention.

ARTICLE XVII.

Any Colony or Territory belonging to the Union may at any time levy a Customs duty upon ale or beer, spirits and blasting compounds, the produce or manufacture of any other such Colony or Territory, not exceeding any duty of excise which may be levied by the importing Colony or Territory on the produce or manufacture of articles of the like description within its own borders, provided that such articles from whatsoever part of the Union they may be imported shall be liable to uniform duties.

Where a duty of excise is levied on any article in any Colony or Territory belonging to the Union, such article may be removed under bond under terms of Article XI. to any other Colony or Territory in the Union.

Where a prohibition exists in any Colony or Territory of the Union against the manufacture of spirits for sale, it shall be lawful for such Colony or Territory to levy on spirits produced within the Union a Customs Duty not exceeding that levied on similar spirits produced outside the Union.

ARTICLE XVIII.

Any Colony or Territory belonging to the Union may, under suitable regulations, rebate the whole or the part of the duty on methylated spirits or alcohol imported solely for manufacturing or scientific purposes, within its borders, and on soap and other substances imported for and exclusively used in connection with the industry of wool-washing.

ARTICLE XX.

For the purposes of estimating the amount of Customs Duty whenever levied on goods *ad valorem*, and of the declaration and oaths which may be at any time required by any law or regulations in relation to the question of such duty, the current value of such goods shall be taken to be the true current value in the open market for such goods at the place of purchase by the importer or his agent, including the cost of packing and packages, but not including agent's commission if it does not exceed 5 per cent. : provided that in no case shall the true current value as above defined be less than the cost of the goods to the importer at the place of purchase.

revious to the year 1886 the weight of Mails conveyed by Travelling Post Office was not shown.
ecreases in the number of letters, &c., during 1896 are explained by the fact that Mail Matter exchanged between the South public and Oversea Countries commenced to be transmitted in Closed Bags in February of that year, previously it was through the Cape Town Office in open Transit.
ncludes mails to all oversea countries.

Memo.—*On Acreage disposed of and undisposed of.*

As no general Survey of the Colony has been made, it is impossible to state exactly the area undisposed of. From the latest calculations that have been made, however, the area of the Colony, including Griqualand East and West, Tembuland, Transkei, Port St. John's, Walfish Bay, Pondoland, and British Bechuanaland is estimated at 83,805,012 Morgen (177,376,660 Acres). The quantity of Land disposed of up to the 30th June, 1904 being about 61,598,674 Morgen (130,375,854 Acres), there appear to remain undisposed of 22,206,538 Morgen (47,000,806 Acres), in which are included some Loan Places still unconverted, Missionary Institutions, Native Reserves and Locations, Outspans, Commonages, and Crown Lands, held under license in terms of Act No. 40 of 1895. This area is *exclusive* of that part of the Railway Land Grant in British Bechuanaland which was undisposed of on the 30th June, 1904, of about 1,337,060 Morgen or 2,829,940 Acres.

Note.—One Morgen=2·1165402 Acres.

General Note explanatory of system upon which Special J. P. and R. M. Crime Returns are compiled:—

1. An offender is on the preferment of *every* fresh charge during the period to which the statement relates, treated therein, on *each* occasion, as a new misdemeanant brought up for first time, and in the event of being accused simultaneously of the commission of two or more distinct species of crime is separately entered for each.

2. It should be observed that the number of *Cases* tried is not necessarily the same as that of *Persons* accused.

3. When a preliminary examination has been held, and the case, after submission to the Attorney, Solicitor-General, or Crown Prosecutor, has been by him remitted for further action to be taken thereon by R. M., the said examination is treated as a prosecution.

4. To *each* species of crime *separately* has been assigned a complete entry in all the columns.

5 Entries regarding persons awaiting trial before *Circuit Courts* are recorded in the column placed next after the "Conviction" column.
